

Artwork Specifications

IMPORTANT

■ If your artwork does not comply with these specifications, Print Impact have the right to charge extra for artwork fees and/or require extra days to process the artworks.

COLOUR MODE

■ The artwork should be saved in CMYK, Print Impact will not take responsibility for any unexpected results experienced from artwork supplied in non-CMYK colours. Colour shift or errors due to incorrectly supplied files will be reprinted at the clients expense.
■ Do not use RGB or Pantone colours unless pre-arranged for custom jobs.

FILE FORMAT

■ Customers must create artwork using appropriate software: Adobe Creative Suite (CS6 - or lower), CorelDraw (X7 - or lower) or any other valid graphics package.
■ Customers artwork must be supplied in the appropriate format: .JPG and .PDF (Multi page files not accepted unless pre-arranged)

ARTWORK PROPORTION

■ Customers' artwork should be supplied at 1:1 scale.
■ Scaled artwork must be proportional with the final product and Print Impact must be informed of the scaling.

TEXT FORMAT

■ All fonts used in the artwork must be converted to outlines/curves. Failure to outline/curve fonts may cause type issues that could affect the outcome of your job.
■ Alternatively please supply the FONT that was used.

BLEED

■ PDF Artwork must include bleed on all sides. Ensure bleed area is defined in PDF presets.

FILE SIZE AND SUPPLY METHOD

■ Email: Maximum 5mb for individual document.
■ You may also use a file transfer service such as Dropbox, Wetransfer or Wesendit for larger files.

SPECIALIST PRODUCTS TEMPLATES

■ Accurate artwork templates of various specialist products are available on our website for download: (<https://www.printimpact.co.za/banner-template-download/>)
■ It is important not to make any changes to your template.

INK AND COLOUR SPECIFICATIONS

■ Minimum ink coverage of CMYK should not be less than 10%
■ Due to CMYK printing limitation, and "PASTEL" or "SPOT" colour will not appear as an exact replication.
■ For the best printing outcome, Rich Black (C:40%, M:40%, Y:40%, K:100%) is recommended instead of 100% Black.
■ Gradients or transparencies cannot be colour matched
■ Screen/Monitor will not show exact colours when printed as screens/monitors are set to run on RGB and not CMYK

ARTWORK LAYOUT SERVICE

■ Graphic Design Services and artwork amendments are charged at an hourly rate, please contact your account manager or sales department for a quote.

Artwork FAQ

1) What are all the Costs involved:

- ▶ Design Fee: Starting at R300 (hourly rate)
- ▶ Admin Fee: R75
- ▶ Image Purchase: Starting at R200
- ▶ Printing Price: All products have prices attached, and where mentioned include systems and attachments

2) Does Print Impact supply images?

We have a collection of images that you can choose from. We will discuss your requirements and collaborate on an image. We will find and / or design the image at the quality you need for your print size. If we need to purchase or find an image, we are more than glad to assist you.

3) Can I purchase or design my own image?

Yes, and we will provide expert advice on quality, dimensions and templates if you need.

Disclaimer:

Any stock images purchased either by Print Impact or yourself via an external stock website will remain the property of both you and Print Impact for any reprint or other purposes.

4) What file formats do I need to supply to Print Impact?

We can work off almost any file type as long as the resolution is high enough for your print size. We will be happy to check your images and advise you.

5) How to setup your Artwork - Artwork Queries?

Artwork specifications and templates can be found & downloaded from the Download Templates page (found in the footer of our website) or under each Product Page.

Follow the Artwork Specs & Templates to maximise the impact of your Artwork. Artwork templates are essentially a blank page at the correct / required Size, with a red Line representing the required bleed.

The Basic Requirement of each Artwork we accept for Printing must be:

File Formats accepted: We only accept PDF or JPEG files. However it may benefit you to send us the original working file, ie. CDR or PSD. Please feel free to ask us if you are unsure.

These two formats ensure the optimum content & colour integrity and hence are essential to our print process.

Resolution Requirements: 150 DPI minimum, for optimum Resolution please save your Artwork at a minimum of 150 DPI. Having said that a higher DPI is preferable. (Ideally 150 DPI – 300 DPI)

Artwork Size Requirement: 1:1 Scale, meaning the Artwork must be at the actual Size you're looking to print.

Bleed is essential: The bleed requirement varies from Product to Product, see the Artwork Specs for that Specific Product to obtain the minimum essential Bleed requirement.

For Example: If you'd like to order an Outdoor Vinyl Banner size 3000mm by 1000mm. The Artwork that needs to be supplied must be PDF/JPEG, High Resolution (Minimum 150 DPI), & 1:1 Scale or 3000mm by 1000mm in size.

6) Need help setting up your Artwork – Artwork Layout Service?

At Print Impact we offer a comprehensive Art Layout Service, meaning we are able to help with setting up your Logo & Text to maximise the impact of your Banner. Our Art Layout / Set-up service does come at an additional Cost.

Our Artwork Set up service doesn't cover conceptual Design Creation, meaning we can't create artwork elements & Logos from scratch.

If you have the elements of the design you'd like to use we're happy to help setup your Artwork. For a fee, basic words can be arranged within the product template. Resizes can be produced IF the artwork is provided to the correct 1:1 scale (e.g. a 1500mm x 500mm can be enlarged to 3000mm x 1000mm).

We are more than eager to assist you with any queries you may have...
